

## SERRE MODULABLE 4 SEASONS BASILIC

- 1** Module de base 5 m<sup>2</sup>
  - 2** Module d'extension (2,50 m<sup>2</sup>)
- Extensible à l'infini : 5 m<sup>2</sup> + 2,5 m<sup>2</sup> + 2,5 m<sup>2</sup>...

# NOTICE DE MONTAGE A CONSERVER

## IMPORTANT

- Merci de lire ces instructions attentivement avant de commencer le montage de la serre.
- Merci de vous assurer que toutes les pièces mentionnées sur cette notice sont présentes dans le carton et de vérifier les quantités.
- Merci de suivre les étapes dans l'ordre indiqué par la notice.

## CONSEILS DE SÉCURITÉ

- Veuillez porter gants, chaussures et lunettes de protection pour le montage de la serre.
- Respectez les conseils de sécurité des outils que vous utilisez pour ce montage.
- En cas d'intempéries (pluie, vent, orage...), ne montez pas votre serre.
- La serre doit être montée par 2 personnes.
- Les sachets plastiques et les petits composants sont à tenir hors de portée des enfants. Eloignez les enfants de la zone de montage.
- L'aluminium est un métal conducteur d'électricité, tenez les profilés aluminium éloignés de toute source électrique.
- Tout appareil produisant de la chaleur ne doit pas être stocké dans la serre (barbecue, chalumeau, ect...).
- La serre doit être positionnée et fixée sur un sol horizontal et plan, non exposé au vent.
- Vérifiez l'absence de réseaux (eau, électricité, gaz) sous l'emplacement de montage de la serre.
- Attention, ne pas monter sur le toit : risque de chute et de blessures graves.
- Ne vissez pas de façon définitive tous les éléments avant l'assemblage complet du produit (à l'exception de la base). Une fois les verres et polycarbonates positionnés vous pouvez visser de manière définitive.

## CONSEILS D'ENTRETIEN

- Pour nettoyer votre serre, utilisez de l'eau claire savonneuse.
- N'utilisez surtout pas d'acétone, des nettoyants abrasifs ou autres détergents spéciaux pour nettoyer les panneaux.
- Graissez régulièrement les glissières et les articulations (notamment la porte).
- Dégagez le toit de la neige et des feuilles.

# BASE DÉBUT / FIN

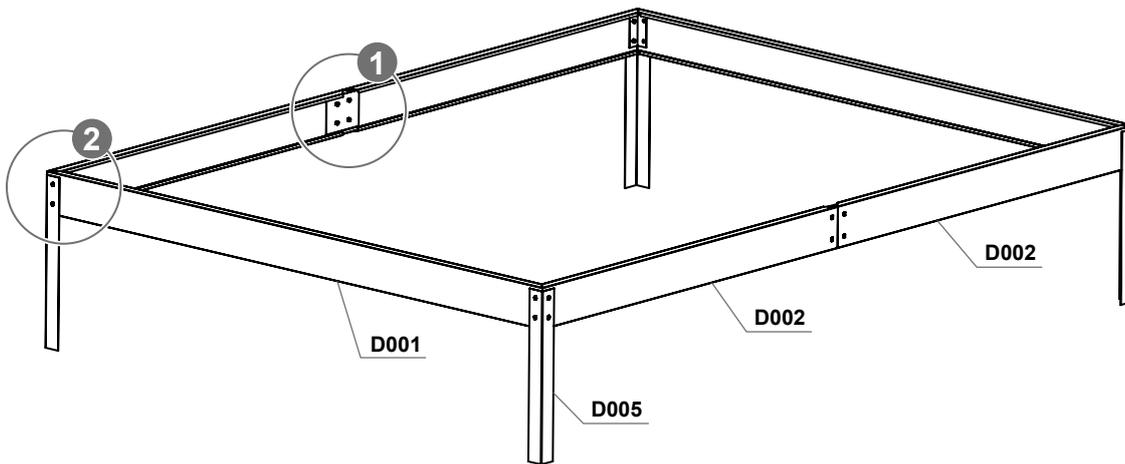

Une fois la base montée, la fixer définitivement au sol.  
Insérer les équerres d'ancrage dans plot béton de L. 30 x l. 30 x H. 45cm.

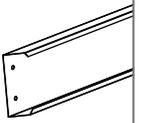

Il est impératif que la base soit montée de niveau.

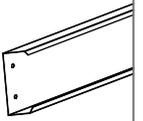

Crochet à positionner lors de la pose de la serre sur la base

1010 x 24

# FIXATION DE LA BASE AU SOL

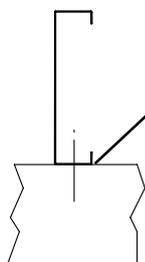

## MONTAGE EN PLEINE TERRE

- Positionner la base à l'endroit voulu, de niveau sur un sol damé.
- Repérer et marquer l'emplacement des pattes de scellement suivant le schéma ci-dessous.
- Sous les quatre pieds marquer un carré de 300 x 300 mm et creuser sur une profondeur de 450 mm
- Placer la base, la mettre de niveau mais **ATTENTION**, ne pas remplir les trous avant le montage complet de la serre.

## FIXATION SUR DALLE BÉTON

Détail A-A

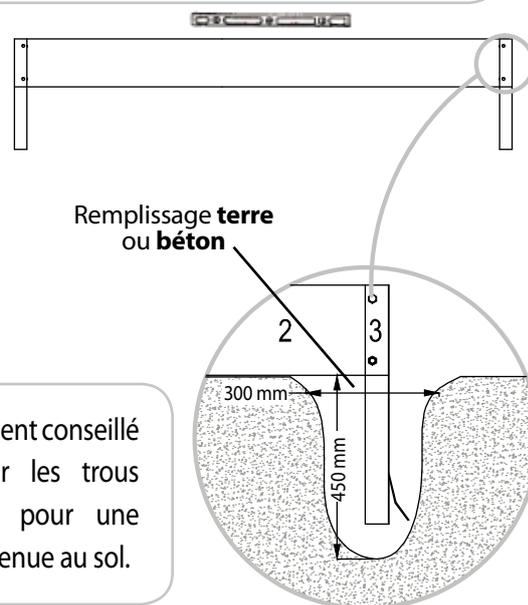

Fixation par chevilles à l'intérieur de la base

Visseries et chevilles de fixation non fournies

Il est laissé à votre libre choix et décision, l'utilisation des fixations adéquats selon les supports que vous décidez d'utiliser (pourtour bois, parpaings, plaques ciment, ...).

## FIXATION EN PLEINE TERRE

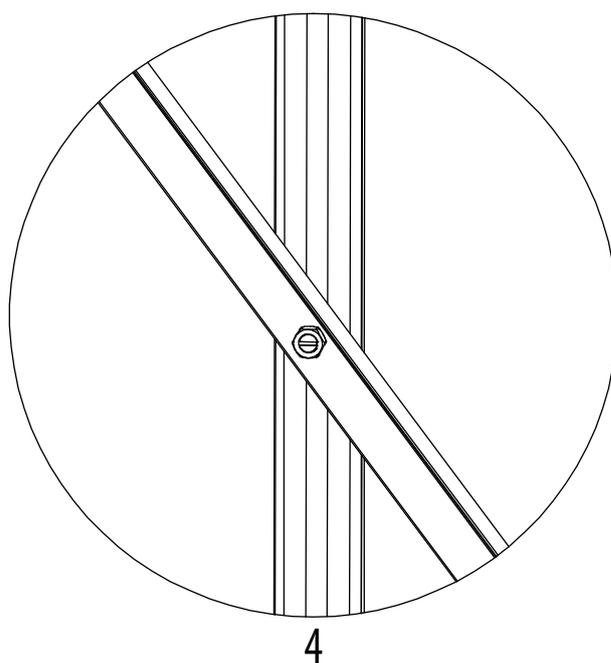

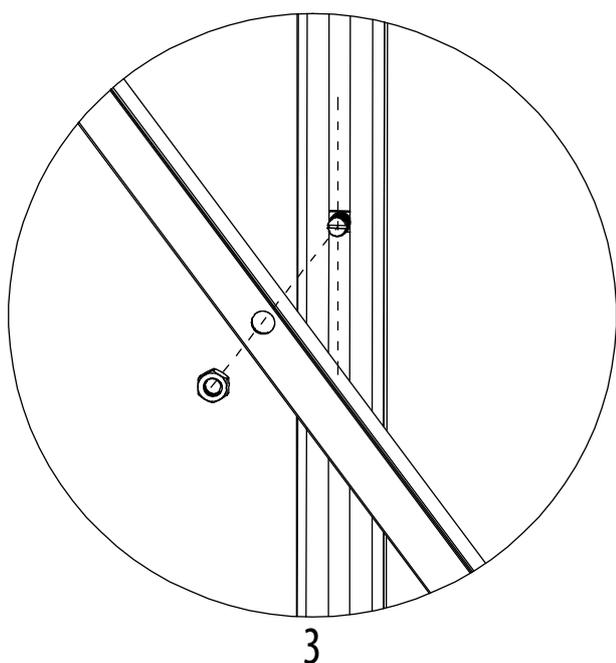

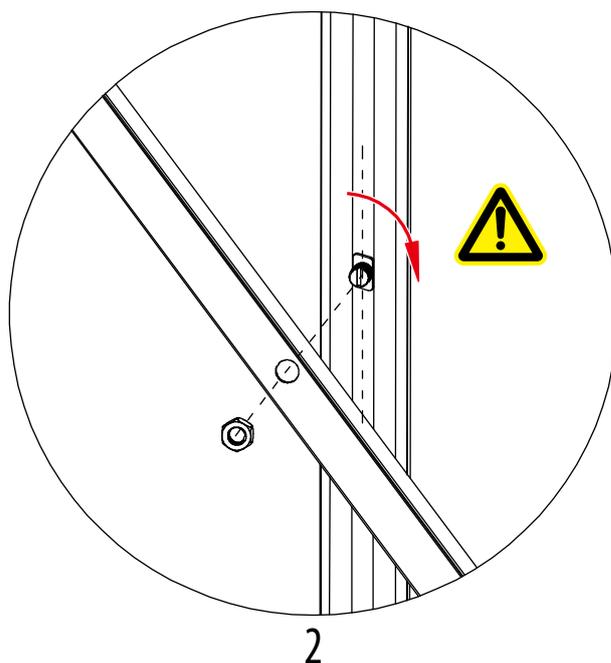

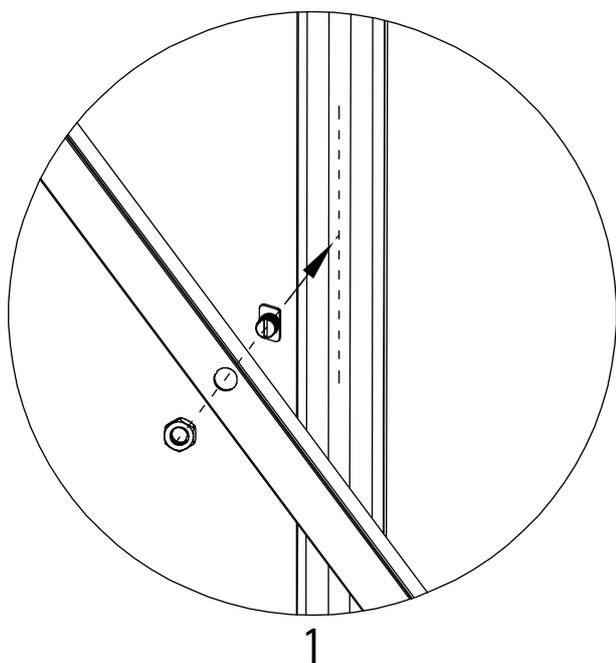

Il est vivement conseillé de remplir les trous de béton pour une meilleure tenue au sol.

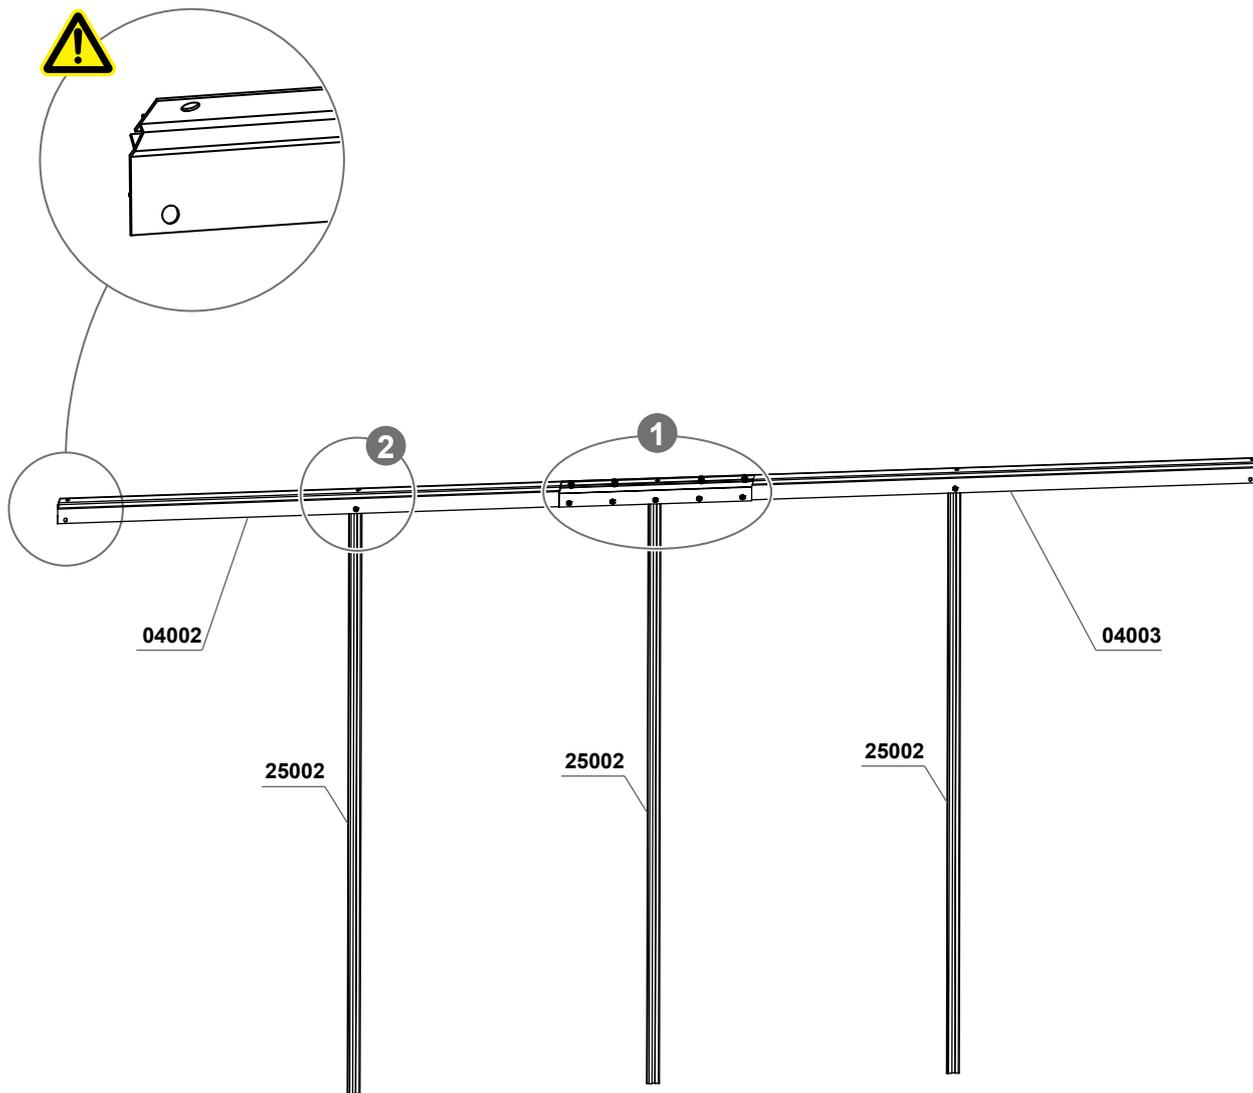

## PRINCIPE D'UTILISATION DES VIS 1002 ET 1003 DANS LES RAINURES EN FORME DE T DES PROFILÉS ALUMINIUM

Vous rencontrerez ce principe a plusieurs étapes du montage. Merci de vous y référer le cas échéant.

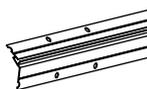

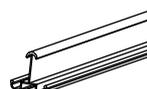

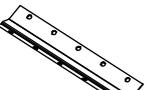

- 1) Entrer la tête de vis dans la rainure du profilé.
- 2) Tourner la tête de vis à 90° afin qu'elle ne puisse pas sortir du profilé.
- 3) Assembler la/les pièce(s) nécessaire selon les étapes.
- 4) Serrer l'écrou.

# ACCESSOIRES

## Accessoires - Hivernage

### CHAUFFAGE ÉLECTRIQUE

**Phoenix - 230 V**

- 3 puissances de chauffage (1-1,8-2,8 kw)
- Thermostat réglable de 0 à 26°C
- Ventilation haut débit 400 m<sup>3</sup>/h
- Fonction ventilation seule pour l'été
- 3m de câble + support + chainettes de suspension
- Thermostat digital inclu
- Puissance de chauffage de 2kw
- Contrôle thermostatique de -50°C à 99°C

**Palma digital - 2kw**

- Contrôle très précis de la température
- Contrôle de chauffage à distance
- Débit de ventilation 153 m<sup>3</sup>/heure d'air
- Protection contre le gel et bon rendement énergétique
- Lg 3m de câble
- Norme IPX4 (épreuve des jets)

### CHAUFFAGE À PÉTROLE

**Warmax power 5**

- Surface < 5 m<sup>2</sup>
- Réservoir de 4,5 l

**Warmax power 4**

- Surface < 4 m<sup>2</sup>
- Réservoir de 4,5 l

**Câble chauffant**

**Thermostat TER 2**

Qu'il s'agisse de chauffer, aérer ou rafraîchir, le thermostat pour câble chauffant est l'outil de commande idéal pour toutes les installations et situation de climatisation dans votre serre. Définissez des températures et commandez précisément le chauffage électrique ou le câble chauffant de votre serre. A l'aide de ce thermostat vous pourrez rafraîchir au besoin la serre ou produire un courant d'air pour éviter une chaleur excessive.

Système de chauffage électrique de surface pour vos cultures sur tablettes. Constitué d'un fil chauffant isolé entre deux feuilles d'aluminium qui permet ainsi une meilleure répartition de la chaleur. Grâce à ce système, vous ne chauffez que vos plants et semis à température constante, sans chauffer entièrement votre serre, ainsi vous réalisez une économie d'énergie ! Nappe à poser directement sous les plantes et à brancher.

**Nappe chauffante**

**Nappe chauffante**

## Accessoires - Vitrage, Ouvertures

**Lucarne (verre inclus)**

Référence 780442

Permet d'augmenter l'aération d'une serre de jardin.

**Ouverture automatique de lucarne, simple ressort**

Référence 780453

**Ouverture automatique de lucarne, double ressort**

Référence 793791

**Jalousie**

Référence 780462

**Ouverture automatique de jalousie**

Référence 780463

**Cylindre d'ouverture automatique (recharge)**

Référence 781845

Une jalousie permet de créer avec une lucarne, une ventilation supplémentaire de la serre. Se fixe sur les montants de la serre, sur une paroi verticale.

L'ouverture automatique permet l'automatisation de l'ouverture et la fermeture de jalousies. Fonctionne avec un cylindre et une cartouche de cire. Température réglable entre 15 °C et 25 °C.

**Ventouse**

Référence 367350

La poignée à 2 ventouses permet de transporter et de prendre le verre plus facilement.

**Clips de vitrage à ressort**

Référence 794102

Les clips de vitrage à ressort permettent de maintenir le vitrage des serres de culture et des serres à l'ancienne de la marque LAMS.

**Cavaliers (clips et vitrage)**

Référence 794105

Les cavaliers en inox permettent de faire chevaucher deux vitrages. Convient pour toutes les serres.
